

Do you own your own home and need assistance with home repairs?

Washington University
Medical Center

For the fifth consecutive year, Washington University Medical Center (WUMC) is teaming with Rebuilding Together St. Louis to offer a home repair assistance program to low income residents in Forest Park Southeast. The mission of this initiative is to allow residents of FPSE to continue to live independently and in the comfort and safety of their own homes.

For more information and/or to apply please contact:
WUMC Community Development Manager, Brooks Goedecker at (314)747-2332
